

not itself a PSB Surety provided that the relationship between the PSB Surety and the Affiliate has been fully disclosed to SBA and that such Affiliate has been approved by SBA to participate as a Prior Approval Surety pursuant to § 115.11.

[72 FR 34600, June 25, 2007]

**§ 115.63 Allotment of guarantee authority.**

(a) *General.* SBA allots to each PSB Surety a periodic maximum guarantee authority. No SBA guarantee attaches to bonds approved by a PSB Surety if the bonds exceed the allotted authority for the period in which the bonds are approved. No reliance on future authority is permitted. An allotment can be increased only by prior written permission of SBA.

(b) *Execution of Bid Bonds.* When the PSB Surety Executes a Bid Bond, SBA debits the Surety's allotment for an amount equal to the guarantee percentage of the estimated penal sum of the Final Bond SBA would guarantee if the Contract were awarded. If the Contract is then awarded for an amount other than the bid amount, or if the bid is withdrawn or the Bid Bond guarantee has expired (see § 115.12(c)), SBA debits or credits the Surety's allotment accordingly.

(c) *Execution of Final Bonds.* If the PSB Surety Executes a guaranteed Final Bond, but not the related Bid Bond, SBA debits the Surety's allotment for an amount equal to the guarantee percentage of the penal sum of the Final Bond. SBA will debit the allotment for increases, and credit the allotment for decreases, in the bond amount.

(d) *Release and non-issuance of Final Bonds.* The release of Final Bonds upon completion of the Contract does not restore the corresponding allotment. If, however, a PSB Surety approves a Final Bond but never issues the bond, SBA will credit the Surety's allotment for an amount equal to the guarantee percentage of the penal sum of the bond. In that event, the Surety must notify SBA as soon as possible, but in no event later than 5 business days after the non-issuance has been determined. Until the Surety has so notified SBA, it cannot rely on such credit.

**§ 115.64 Timeliness requirement.**

There must be no Execution or approval of a bond by a PSB Surety after commencement of work under a Contract unless the Surety obtains written approval from the D/SG. To apply for such approval, the Surety must submit a completed "Surety Bond Guarantee Agreement Addendum" (SBA Form 991), together with the evidence and certifications described in § 115.19(f)(1)(ii).

**§ 115.65 General PSB procedures.**

(a) *Retention of information.* A PSB Surety must comply with all applicable SBA regulations and obtain from its applicants all the information and certifications required by SBA. The PSB Surety must document compliance with SBA regulations and retain such certifications in its files, including a contemporaneous record of the date of approval and Execution of each bond. See also § 115.19(f). The certifications and other information must be made available for inspection by SBA or its agents and must be available for submission to SBA in connection with the Surety's claims for reimbursement. The PSB Surety must retain the certifications and other information for the term of the bond, plus such additional time as may be required to settle any claims of the Surety for reimbursement from SBA and to attempt salvage or other recovery, plus an additional 3 years. If there are any unresolved audit findings in relation to a particular bond, the Surety must maintain the related certifications and other information until the findings are resolved.

(b) *Usual staff and procedures.* The approval, Execution and administration by a PSB Surety of SBA guaranteed bonds must be handled in the same manner and with the same staff as the Surety's activity outside the PSB program. The Surety must request job status reports from Obligees in accordance with its own procedures.

(c) *Notification to SBA—(1) Approvals.* A PSB Surety must notify SBA by electronic transmission or monthly bordereau, as agreed between the Surety and SBA, of all approved Bid and Final Bonds, and of the Surety's approval of increases and decreases in the
